

VISUAL ART & DESIGN

My name is Stewart Hartsfield and this document is intended to reach you as a referral.

I'm soliciting projects requiring digital execution of creative visuals or design work. In many cases, the contracts I undertake are commercial or promotional, but I don't limit myself only to those. I have extensive history as an independent provider of graphic arts – I've worked with ad agencies, large display firms, pre-press houses and printers, as well as small businesses, independents and private individuals – and I also have training and a strong grounding in the fine arts.

I'm a dependable purveyor of creative services, with maturity and abundant experience covering:

- Logo Design
- Business Card & Stationary Design
- Flyers & Announcements
- Direct Mail & Postcards
- Advertisements
- Newsletters
- Company Brochures
- Product Catalogs
- Promotional & Trade Show Signage
- Internet Ads, Mastheads & Banners
- Website Design

In addition, I'm an expert with Photoshop, specializing in:

- General Retouching & Enhancement
- Restoration & Repair
- Background Removal, Element Extraction & Compositing
- Creative Illustration & Montage

I'm happy to consult with clients as they prepare for upcoming projects. I'll provide a comprehensive, written estimate for the work required and my rates are quite reasonable. For larger contracts, payments can be made in installments, with final charges due only after all work is completed and deemed satisfactory by the client.

I take pride in my work and enjoy these projects, so I give them a great deal of care and attention.

Please contact me if I might be of assistance.

Thank you.
